

AFTER-SCHOOL ACTIVITIES

SPRING TERM 2022-2023

After-School Activities

Our after-school activity programme offers a good variety of options for students to continue learning after school time beyond the academic curriculum. The activities are carefully planned in order to encourage self-improvement, team spirit, fair play, creativity and imagination. After-school activities allow pupils to come into closer contact with children from other classes, building new relationships and strengthening existing ones.

LEARNING HABITS

At BSB we implement a learning model focused on the development of soft skills in all our curricular and extracurricular activities. Specifically, we focus on nine Learning Habits that provide the foundation for future success in school and life, preparing students to take on the challenges that lie ahead. They relate to four key areas: **emotional engagement** – attention and determination, **critical and independent thought** – curiosity, imagination and thinking, **strategic learning** – organisation and reflection and **collaborative teamwork** – socialising and leadership.

The icons next to the title of each Club illustrate the most outstanding Learning Habits for that type of activity, among others.
