

Year 7 Curriculum Overview 2019 - 2020

Subject	September - October	November - December	January - February	March - April	May - June
English	<ul style="list-style-type: none"> • Autobiography- students will be creating a collage and commentary. • They will then be writing their autobiography. • Students may begin Frankenstein the play. 	<ul style="list-style-type: none"> • Frankenstein- the play. Students will be assessed on reading comprehension and creative writing. • Spelling Bee- students will compete in a spelling competition for the whole of Year 7. 	<ul style="list-style-type: none"> • Harry Potter and The Philosopher's Stone by J.K. Rowling. • Spelling, punctuation and grammar • Students will be assessed on creative writing skills. 	<ul style="list-style-type: none"> • Harry Potter and The Philosopher's Stone by J.K. Rowling. • Spelling, punctuation and grammar • Students will be assessed on reading skills. 	<ul style="list-style-type: none"> • Harry Potter and The Philosopher's Stone by J.K. Rowling. • Poetry project • Students will be assessed on reading and writing skills.
Maths	<ul style="list-style-type: none"> • Sequences • Understand and Use Algebraic Notation • Equality and Equivalence 	<ul style="list-style-type: none"> • Place value • Ordering integers and decimals • Fraction, decimal and percentage equivalence 	<ul style="list-style-type: none"> • Solving problems with addition, subtraction, multiplication and division • Fractions and percentages of amounts 	<ul style="list-style-type: none"> • Operations and equations with directed number • Addition and subtraction of fractions • Constructing, measuring and using geometric notation 	<ul style="list-style-type: none"> • Developing geometric reasoning • Developing number sense • Sets and probability • Prime numbers and proof
Science	<p>7A, B, C, D</p> <ul style="list-style-type: none"> • Introduction to investigation skills • Atoms, elements, molecules and 	<p>7A, B, C, D</p> <ul style="list-style-type: none"> • Cells, animal reproduction and sound 	<p>7A, B, C, D</p> <ul style="list-style-type: none"> • Muscles, bones and forces 	<p>7A, B, C, D</p> <ul style="list-style-type: none"> • Acids and alkalis, mixtures and separation 	<p>7A, B, C, D</p> <ul style="list-style-type: none"> • Ecosystems, energy and electricity

	<p>the particle model</p> <p>7E, F</p> <ul style="list-style-type: none"> • Introduction to investigation skills • Ecosystems, energy and electricity <p><i>Investigations skills taught throughout the year, embedded into each topic.</i></p> <p><i>Staggered teaching order to allow for accessibility to practical work for all classes throughout the year.</i></p> <p>Atoms etc: They learn about the periodic table and how the atoms make up compounds, which comprise all substances and how they interact.</p>	<p>7E, F</p> <ul style="list-style-type: none"> • Atoms, elements, molecules and the particle model <p>Cells etc: Students learn about the structure and function of cells and how they work together to build up the organs within an organism. The process of fertilisation for animal reproduction by sexual reproduction.</p> <p>How sound travels in waves and the applications of sound technology.</p>	<p>7E, F</p> <ul style="list-style-type: none"> • Cells, animal reproduction and sound <p>Muscles etc: The function of the muscles to enable movement of the body, which is supported by the skeletal structure. The students will learn about how the muscles apply forces, which allows movement of objects. Forces are used to explain the phenomena of movement of all living or non-living bodies.</p>	<p>7E, F</p> <ul style="list-style-type: none"> • Muscles, bones and forces <p>Acids etc: The chemical properties of both acids and alkalis are described with the understanding of the chemical reactions between them. Separation techniques are applied to mixtures of substances to obtain pure samples, with a clear understanding of the importance of the necessity of this.</p>	<p>7E, F</p> <ul style="list-style-type: none"> • Acids and alkalis, mixtures and separation <p>Ecosystems etc: Understanding the habitats organisms live in and the interconnection between them. How energy is produced and converted and means by which to obtain renewable and non-renewable energy. How electric circuits function and developing the ability to build up more complex functional circuits.</p>
Geography	<p>PBL – The Past</p> <p>An introduction to Geography.</p>	<p>PBL – The Past</p> <p>Site and situation of locating a castle (PLB link to History)</p>	<p>PBL – The Present</p> <p>A look in to the physical and human geography of Cataluña. Looking at the</p>	<p>PBL – The Present</p> <p>Coastal use, coastal processes and coastal</p>	<p>PBL – The Future</p> <p>Focusing on human change, such as population change and</p>

	Developing locational knowledge and learning to use key geographical terminology to describe locations. Introducing some key geographical skills, such as direction (compass points), and scale (continents, countries and regions).	Factors affecting settlements and why do population change over time.	importance of this region but also beginning to analyse the differences in the region and even comparing to other cities and areas in Spain.	management (with focus in our local areas). PBL – The Future An introduction into ways the world is predicted to change, looking at different physical and human changes.	physical changes, specifically climate change and the environment.
History	<ul style="list-style-type: none"> • What was England like in 1066 • The Battle of Hastings • The conquest of England 	<ul style="list-style-type: none"> • Castles • The Domesday Book • The feudal system 	<ul style="list-style-type: none"> • Henry II and Thomas Becket • King John and the Magna Carta • The Peasants Revolt 	<ul style="list-style-type: none"> • Health and Medicine in the Middle Ages • The Black Death • England and its neighbours 	<ul style="list-style-type: none"> • Joan of Arc • The Wars of the Roses • The Princes in the Tower
Sociales	<ul style="list-style-type: none"> • The work of the historian, historical sources and placing moments in history • Time concepts: centuries and decades • Make a timeline: KNOW HOW Segments that history is divided into 	<ul style="list-style-type: none"> • Life in a tribe • Paleolithic art and beliefs • The Paleolithic Revolution • Interpreting cave paintings • The Neolithic home • The Age of Metals <p>How Stonehenge was built DISCOVER Iberian Peninsula and Catalunya in prehistory</p>	<ul style="list-style-type: none"> • From cities to empires. Birth of writing • Cuneiform • First civilisations • Mesopotamia: where and when • Mesopotamian society • The social pyramid KNOW HOW • Standard of Ur DISCOVER 	<ul style="list-style-type: none"> • Ancient Egyptians: where and when • Government and ruling classes • Egyptian society • Religion: gods and temples • Building: temple of Karnak • Afterlife • Mummies • DISCOVER 	<ul style="list-style-type: none"> • Geography: • A moving planet, seasons • COMPETENCIES: • *Apply a technique: orientation using a map • *Practical case: why do we adjust our watches when we travel? • Name oceans and continents

Year 7 Curriculum Overview 2019 - 2020

	<p>Human evolution and hominisation Nomadic life in the Paleolithic Period Identifying Paleolithic tools</p>		<ul style="list-style-type: none"> • Mesopotamian art and culture (religion, architecture, sculpture) • Buildings: Ziggurat of Ur 	<ul style="list-style-type: none"> • Egyptian art (sculpture and paintings) 	<ul style="list-style-type: none"> • Identify shapes of continental relief • Formation of volcanoes and earthquakes • Tsunamis DISCOVER • Importance of water to human life

		Christmas concert Christmas cards competition.			
Computing	E-safety. File Management. An introduction to 3D modelling – students will begin to use software to create 3D models in preparation for making their riddle rooms.	3D modelling and printing. Students continue to use 3D modelling in a more advanced way to create a 3D model of their riddle room which they will then print out using a 3D printer.	Spreadsheets and Databases. Students will use modelling and data handling software in order to store, edit, manipulate and search for information.	Audio and visual editing. Students will use software to create and edit sound and moving images.	Artificial intelligence. Students will study AI and its uses and effects in the real world. This will include a visit to see AI in action.
Music	The Elements of Music: Students discover how music is put together, focusing on duration, dynamics, tempo and structure. They compose a rhythmic piece of music, performing these using percussion instruments.	Melody: Students will study how melodies are written, focusing on pitch. They will learn to play several notes on the violin and perform melodies together in a class orchestra.	Beethoven: Students learn about the classical era in music. They learn a variety of parts for Beethoven's 'Ode to Joy' playing these together in small ensembles.	Chords: Students study harmony and learn to play a variety of chords on the ukulele. They perform these in an accompaniment to a 'mash up' performance of several songs that they have chosen in their groups.	Song writing: Students combine all of the skills they have developed over the year to write a song, performing these in a class talent show at the end.
Physical Education (PE)	The focus in PE lessons in Y7 is on developing key knowledge and understanding in how the body works, how we develop fitness and how we can improve the application of skills to various activities. Across the year, activities will include; Athletics, Badminton, Handball, Table-Tennis, Trampolining and Volleyball. <i>Each rotation is based on a half term on each activity across the year.</i>				
Physical Education (Games)	The focus in Games lessons in Y7 is centred on developing individual and team performance in various sports. There is a greater emphasis placed on the competing within lessons & the development and application of sport-specific skills. In addition, increasing the leadership and coaching opportunities in the future begins in Y7, through each activity. Activities to include; Basketball, Netball, Rugby, Football (Soccer), Cricket and Rounders. <i>Students will complete 3 to 4 activities across the year.</i>
