| | <p>branch shapes through the application of the three-stage drawing process.</p> <p>Leaf pencil crayon work Pupils are then to complete these line drawings using the following processes- hatching, cross-hatching, pressure shading and colour pencil. Pupils will be expected to examine surface texture and choose the right process.</p> <p>Watercolor work Pupils will then be introduced to paint and its related processes. Students will paint a large leaf using the “Dry Brush Technique”. Students are given an A4 handout with instructions in how to paint a leaf using tonal values. Colour theory will also be introduced at this stage.</p> | <p>following- hatching, cross-hatching, pressure shading, paint, colour pencil.</p> <p>Watercolor painting Using the lion handout students will be introduced to the technique of undercoating and then hatching in paint to show surface texture. They will undercoat and then dry brush blend the short hair in the first lesson. In the following lesson, they will “hatch” the mane of the lion using 3-4 different tones of orange and brown.</p> | <p>order to create a “Jungle” in a naïve style.</p> <p>OR</p> <p>Using their previous pieces of artwork, as a starting point, students will produce a compositional design on A4 paper. Students will be taught set criteria to apply to their designs that will help them gain interesting, full compositions, similar to the work of Rousseau.</p> | <p>work sheets and homework's.</p> | <p>flowers and animals from the previous work sheets and homework's.</p> <p>Extension If pupils complete the piece early they can add relief plants and flowers in coloured paper and paint. Pupils study an example of three of Frida Kahlo's portraits. They follow the use of symbols noticed in Frida Kahlo's work and create their own set of cultural symbols. Together with a head and shoulders image of themselves and their symbols, they create their own portraits. This work compliments the skills they have already learned from the Henri Rousseau project.</p> |

| | | | | | |
|------------------|---|--|--|---|---|
| | Students are given a blank colour wheel to complete with paint after a demonstration from the teacher. Starting with the 3 primary colours, students add secondary colours to complete the wheel. | | | | |
| Computing | Knowing your Computer and E-safety - students are provided with the very latest tips on how to stay safe online. | Computer networks and data modelling - students will learn how to set up a simple network and will also use spreadsheets to plan a party. | Databases – student will use a database to help them solve crimes. | Textual programming – students will use the Python language to create simple programs and games | Image Editing – students learn how to use image editing software to alter the appearance of pictures. |
| Music | Blues Music: Students study the history and conventions of Blues music. They learn about 12-bar blues structure, blues chord sequences, walking basslines, blues scale improvisation and swung rhythms, putting all these together to create a group performance. | Christmas Song Writing: Students study the various types of Christmas songs, looking at how the lyrics, melody and instrumentation create festive imagery. They work in small groups to write a Christmas song for an end of term performance. | Rhythms of the World: Students study the rhythmic traditions of African drumming and Brazilian Samba. They will explore polyrhythmic textures, call and response structures and dotted and syncopated rhythms, participating in whole-class and small group drumming performances. | Minimalism: Students study the conventions of the minimalist movement, looking at how the style influenced composers to create simple, repetitive music. They will explore motifs, loops, phase shifting and melodic transformation and create their own minimalist compositions in small groups. | Pictures at an Exhibition: Students will study how art has influenced music. They will explore several different composer's approaches to transforming images into sound before composing their own pieces of music based on the Rousseau project that they have been doing in art. |

|-----------------------------------|---|
| Physical Education (PE) | The focus in PE lessons in Y8 is on embedding the key knowledge and further developing and applying their understanding how the body works, how we develop fitness and how we can improve the application of skills to various activities. Across the year, activities will include; Athletics, Badminton, Handball, Table-Tennis, Trampolining and Volleyball. <i>Each rotation is based on a half term on each activity across the year.</i> |
| Physical Education (Games) | The focus in Games lessons in Y8 is centred on application at a more competitive level of understanding and appreciation than Y7. Individual and team performance in various sports have a greater focus and additional use of higher-level skills, and where tactics and strategies are built upon. There is a greater emphasis placed on the competing elements within games lessons & the development and application of sport-specific skills. In addition, increasingly the Y9 GCSE PE Practical criteria-based assessment focus is directly linked within each activity. Activities to include; Basketball, Netball, Rugby, Football (Soccer), Cricket and Rounders. <i>Students will complete 3 to 4 activities across the year.</i> |
